SUBJECT: Medical Officer Career Plan

1. Your plan for Medical Officers appears to be exceptionally complete. It may be more ambitious than is required at present, but I feel a comprehensive basic plan is necessary, even though only a small part is activated.

2. Administratively, the organization and procedures are correct. The salaries seem to be reasonable and in line with good promotional opportunity.

3. Professionally, I do not feel adequate to pass on the plan, but have the utmost confidence in your recommendations.

4. Summarily, the plan is excellent.
